TECH 3706 - AR/VR in Architectural Environments

A black and white photograph of a forest scene. In the center, a bright light source, possibly the sun, is partially obscured by the tops of tall evergreen trees. The sky above is filled with soft, wispy clouds. Below, the dark silhouettes of more trees and foliage are visible against the lighter sky.

FINALS

The word "FINALS" is written in large, bold, red letters. The letters are slightly irregular and have a thick, hand-painted appearance. Red paint is dripping down from the bottom of each letter, creating a jagged, dripping effect that contrasts sharply with the monochrome background.

WHEN A USER TAKES A PHOTO,
THE APP SHOULD CHECK WHETHER
THEY'RE IN A NATIONAL PARK...

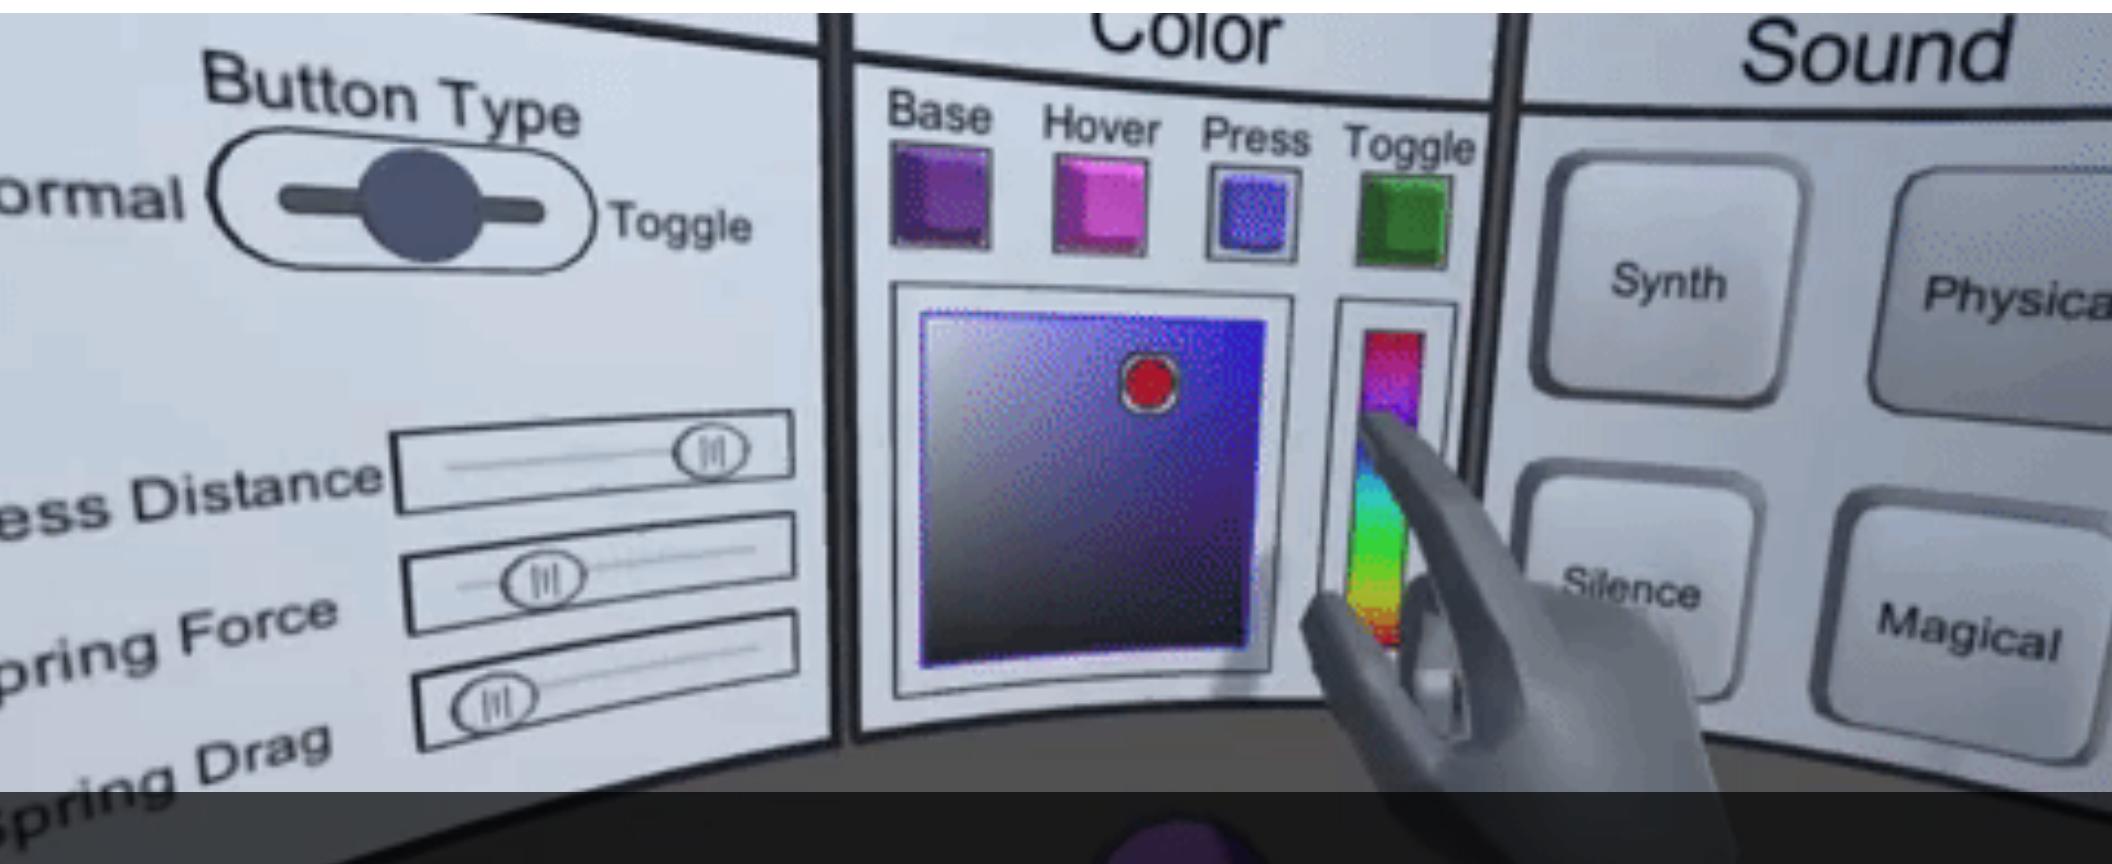

SURE, EASY GIS LOOKUP.
GIMME A FEW HOURS.

... AND CHECK WHETHER
THE PHOTO IS OF A BIRD.

I'LL NEED A RESEARCH
TEAM AND FIVE YEARS.

IN CS, IT CAN BE HARD TO EXPLAIN
THE DIFFERENCE BETWEEN THE EASY
AND THE VIRTUALLY IMPOSSIBLE.

Specifically think about
places where technology is a
barrier.

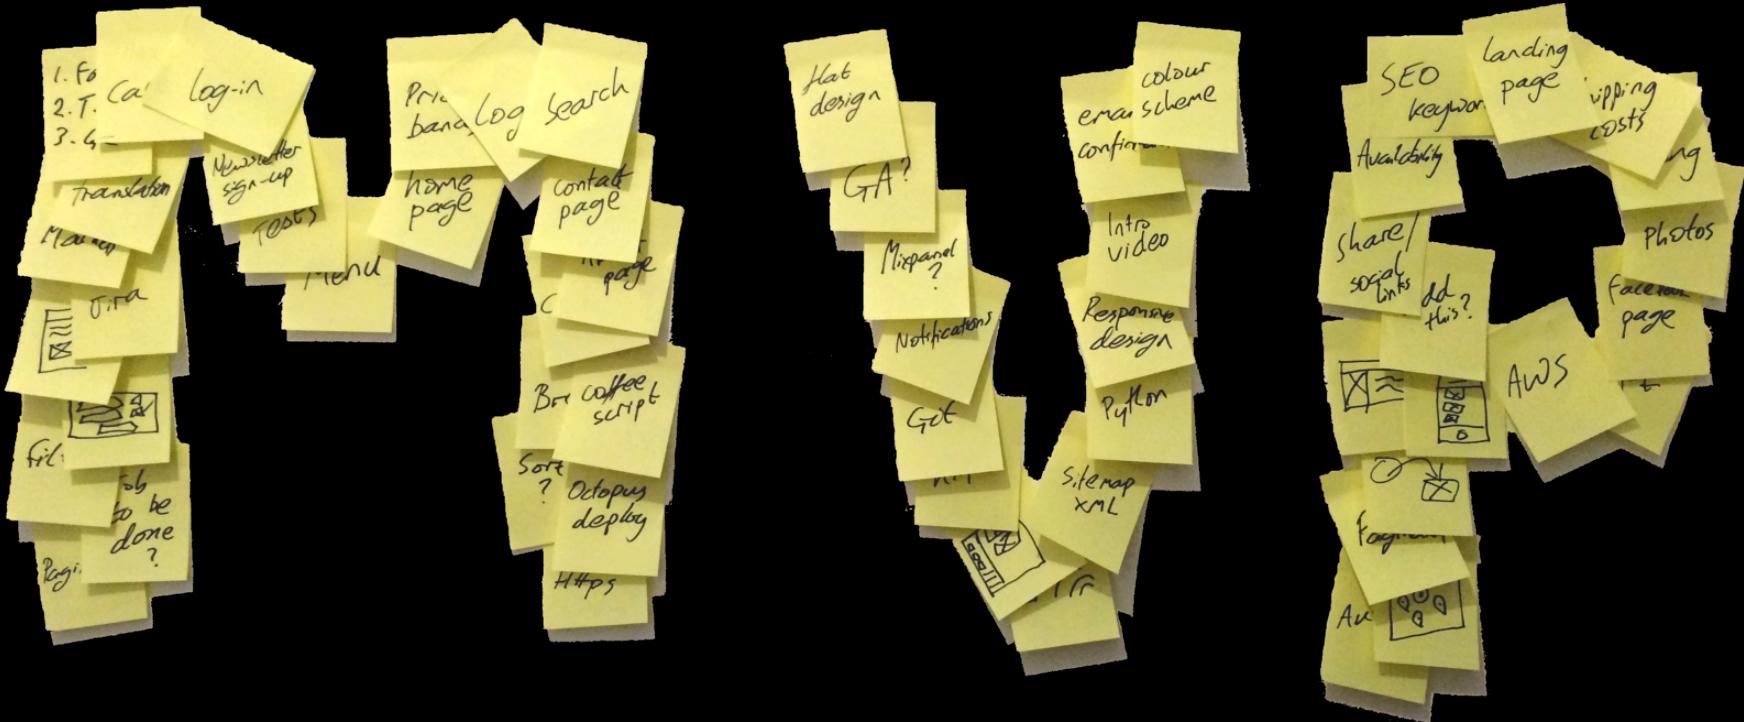

Something Digital you Wish you could touch?

Something big you wish you could see small?

Something small you wish you could see big?

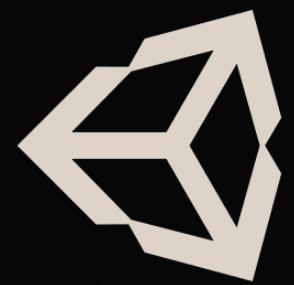

Something invisible you wish you could see?

A close-up photograph of a baby with light brown hair and blue eyes. The baby has a neutral to slightly determined expression, looking directly at the camera. They are wearing a green and white striped shirt. The background is a soft-focus outdoor scene, possibly a beach or park.
